

**MF-INDUCTOR-IN114X121** [↗](#)

## Inductor

Inner-field fixed inductor for dismantling cylindrical roller bearing inner rings in axle boxes of rail vehicles

## Información técnica

**Variante de su producto actual**

Version	Fix R	Fixed, rail vehicles
---------	-------	----------------------

**Datos técnicos**

d	125 mm	Bore diameter inductor
W <sub>i</sub>	122 mm	Clear width inductor, inside
P <sub>max</sub>	22 kW	For generators with power, max. ...
P <sub>rec</sub>	12 kW	Recommended power setting
ϑ <sub>max</sub>	150 °C	Max. permitted heating temperature
	+	Temperature guarded winding
≈m	20 kg	Peso

**Pieza de trabajo a calentar**

FAG F-565632.ZL, F-565633.ZL	Suitable for bearing type
90x113,5x64+2,0+54,4	Dimensions inner ring [dxFxW] (mm)

**Información adicional**

Product image exemplary. Product design subject to change.	Note
Product is manufactured to order. Request with specification of the application case to customer service.	Availability
