

MF-INDUCTOR-IN308X275 [↗](#)

Inductor

Inner field fixed inductor for dismantling cylindrical roller bearing inner rings

Información técnica

Variante de su producto actual

Version	Fix S	Fixed, standard
---------	-------	-----------------

Datos técnicos

d	310 mm	Bore diameter inductor
W _i	275 mm	Clear width inductor, inside
P _{max}	22 kW	For generators with power, max. ...
P _{rec}	20 kW	Recommended power setting
ϑ _{max}	150 °C	Max. permitted heating temperature
	+	Temperature guarded winding
≈m	28 kg	Peso

Pieza de trabajo a calentar

FAG Z-527104	Suitable for bearing type
280x308x275	Dimensions inner ring [dxFxW] (mm)

Información adicional

Product image exemplary. Product design subject to change.	Note
Product is manufactured to order. Request with specification of the application case to customer service.	Availability
