

**MF-INDUCTOR-IN332X300** [↗](#)

## Inductor

Inner field fixed inductor for dismantling  
cylindrical roller bearing inner rings

## Información técnica

**Variante de su producto actual**

Version	Fix S	Fixed, standard
---------	-------	-----------------

**Datos técnicos**

d	335 mm	Bore diameter inductor
W <sub>i</sub>	300 mm	Clear width inductor, inside
P <sub>max</sub>	22 kW	For generators with power, max. ...
P <sub>rec</sub>	20 kW	Recommended power setting
ϑ <sub>max</sub>	150 °C	Max. permitted heating temperature
	+	Temperature guarded winding
≈m	28,4 kg	Peso

**Pieza de trabajo a calentar**

300x332x300	Dimensions inner ring [dxFxW] (mm)
-------------	------------------------------------

**Información adicional**

Product image exemplary. Product design subject to change.	Note
Product is manufactured to order. Request with specification of the application case to customer service.	Availability
