

## MF-INDUCTOR-IN364X240 [↗](#)

### Inductor

Inner field fixed inductor for dismounting cylindrical roller bearing inner rings

## Información técnica

### Variante de su producto actual

Version	Fix S	Fixed, standard
---------	-------	-----------------

### Datos técnicos

d	365 mm	Bore diameter inductor
W <sub>i</sub>	240 mm	Clear width inductor, inside
P <sub>max</sub>	22 kW	For generators with power, max. ...
P <sub>rec</sub>	20 kW	Recommended power setting
ϑ <sub>max</sub>	150 °C	Max. permitted heating temperature
	+	Temperature guarded winding
≈m	29,2 kg	Peso

### Pieza de trabajo a calentar

320x364x240	Dimensions inner ring [dxFxW] (mm)
-------------	------------------------------------

### Información adicional

Product image exemplary. Product design subject to change.	Note
Product is manufactured to order. Request with specification of the application case to customer service.	Availability
